

Covenant to Support the Mission of Don Bosco High School

"Don Bosco High School, a Catholic school, in partnership with the students, parents and community will provide a challenging environment to develop intellectual, social, physical and creative abilities while fostering spiritual and emotional growth so that all students can successfully meet the demands of a changing global society. "

--Don Bosco Mission Statement

To fulfill the mission of Don Bosco High School, its teachers, administrators and board give this covenant to its students and the parents or guardians who send them here. We will provide:

* Dedicated teachers, who promote both educational and spiritual achievement in the Catholic faith, who stay current and progress in their chosen fields, and who use the latest technologies and disciplines to equip their students with the basics they need in order to function as responsible Catholic adults.

* Thoughtful administrators, who constantly work to organize, maintain and improve the school's facilities, materials, staff and curriculum and manage its cost, in a manner consistent with the highest ideals of a private Catholic School.

* An attentive and active board, which listens to the needs of the parents, the administrators, and the teachers and the community, and is committed to achieving a consensus on all issues which confront the school without compromising on the fundamental principles of a Catholic education.

We, the parents/guardians, are sending our student to Don Bosco High School because of its mission, but realize that the teachers, the administrators and the board cannot fulfill that mission alone. To support them in that mission we give this covenant to you. We will:

* Promote the educational and spiritual progress of our student by consistently providing time and encouragement for homework, prayer, and practice of the beliefs and tenets of the Catholic faith.

* Provide a home and family environment where adults model the beliefs, attitudes and responsible behavior, which will be expected of the students when they graduate to full adulthood.

* Support the teachers, the administrators and the board by attending conferences, meetings and activities, by working with them to achieve consensus on the best possible education for the students, and by sharing the cost of that education with the timely payment of tuition.
